The Mystery of the Growing Garden.

My dear, if you wish to weave the pattern "The Stairway to the Garden" into a carpet, you must know the law of honest increase. So that the pattern does not warp and the threads last to the very edge, remember how the rows behave.

1. The Secret of the Step

Every pattern has its own "Step of Faithfulness." If you begin the first row with a small number of stitches and in the second row add, say, two threads to them, then in every following row you must add exactly the same amount.

If there were 5 stitches in the first row and in
